EGM Tech participate in Vietnam exhibition
EGM Tech will participate in the Vietnam Architecture Fair (VAF 2018) on November 27-29, 2018. The exhibition fair is expected to be actively engaged in business contracts with the participation of Korean construction companies and foreign companies in Vietnam.

EGMTECH will collaborate with lighting pole companies in this construction fair. Focusing on making business with companies related to architectural design, taking advantage of the fact that Korean lighting poles and lighting can be introduced to further market.
