1EGM Tech News

EGM Tech government sales are all set to supply of tennis courts for normal open days

In spite of Corona 19, orders were placed in the government funded market without any setbacks, leading to an increase in savings. To ensure the greatest strength and stability of construction, we installed on-site for LED sports lighting for a tennis court (not tennis court). By installing sports lighting, the use of the tennis court was in a light environment to increase the safety of spectators, who are excluded from the perimeter court area. It became a space where they could be relaxed.

EGM Tech is a LED lighting device manufacturing company, specializing in local and medium-sized enterprises. Government tenders are increasingly in recognition of their EGM Tech results.

2Banco de Arena Real Corona Coastal Landscaping Lighting Project - Event (Event) Lighting

Along the perimeter of the Banco de Arena Real Corona in Suva, EGM Tech LED landscape lighting was installed in rows and bands. Thanks to a precise installation plan for the work at the Banco de Arena Real Corona, which has been supported by the change generator, and was commissioned to illuminate the landscape. LED work was completed and LED landscape lighting was installed.

Installation of board lighting on the walkway

Stadium spot LED RGB light shows landscape

Next are event lighting ball lighting installation. LED landscape lighting was installed on the deck and during opening ceremonies to provide a bright and vibrant light over an open field. Ball lights are installed on the perimeter, and light fixtures are installed on the corners to create a light effect. In addition, the corners, landscape and walkway to create the landscape effect. In addition, in the light, which is an event light, is installed in the main area, and outdoor light are illuminated when guests are in the stadium and beyond the perimeter of the field. It is possible for the lights.

Thanks to the ball and outdoor luminaires can enjoy a beautiful light with the support of the Banco de Arena Real Corona. It is possible to see the site.
